

Matt white 90g

Description

A matt coated, supercalendered woodfree white printing paper with a wet-strength and fungicidal treatment.

Basis Weight 90 g/m²

Liner

BG45 white FSC® is a supercalendered glassine paper.

Adhesive

A general purpose permanent, rubber based adhesive for the wine industry.

Performance Data

Min. Application Temp.: 5°C
Service Temperature: -30°C to 70°C

Adhesive Performance

The adhesive features excellent tack and adhesion on a wide variety of substrates, including apolar, and slightly rough substrates.

Shelf Life

To obtain optimal performance, use this product within two years of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.

Applications and Use

This product is designed for Wine labelling, it is suitable for primary labelling of high and premium goods eg: spirits, specialist foods.

These results are based on tests carried out by our suppliers and our own experience. Etiqueta.es cannot give any guarantee for the optimal adhesion of the materials. Etiqueta.es assumes that the customer checks the suitability of the materials, meets his needs and decides for the right material that meets his requirements. The labels should be stored in a dryplace, at an ambient temperature of between 20° - 24 °C and protected from the effects of the weather, such as sun, rain or snow. The adhesive reacts very quickly, especially to the effects of weathering.

FSC®-Certified*

*Look for FSC®-certified products.

Can be overwritten and stamped

NORIS stamping ink #191 is recommended.
Ink dries in about 30 seconds.

Suitable for thermal printing

Check the adaptation of the machine.

Due to its heavy weight, the material may not adhere to small containers (e.g. cans and cosmetic jars)
