

Semi-gloss (Paper liner)

Spec# 54291

Description

A lightweight, coated semi-gloss paper with optimized opacity, brightness, smoothness and gloss. Designed for high-quality color printing with water-based and UV flexographic inks as well as UV letterpress printing.

Basis Weight

53.0# per ream $\pm 10\%$
(500 sheets 25" $\times$ 38")

Liner

40#SCK is a bleached, calendered kraft liner with high internal strength and tear resistance, designed primarily for roll-to-roll label applications.

Adhesive

Fasson® AT2550 is a permanent all-temperature acrylic adhesive offering good room-temperature performance and excellent adhesion at low temperatures. It provides good adhesion to corrugated cardboard and reliable diecutting and stripping characteristics.

Performance Data

Min. Application Temperature: -20°F (-29°C)
Service Temperature Range: -65°F to $+200^{\circ}\text{F}$
(subject to facestock limitations)

Adhesive Performance

Particularly suitable for cold-temperature and warehouse applications. The adhesive is repulpable, supporting recyclability of compatible paper-based packaging.

FDA Compliance

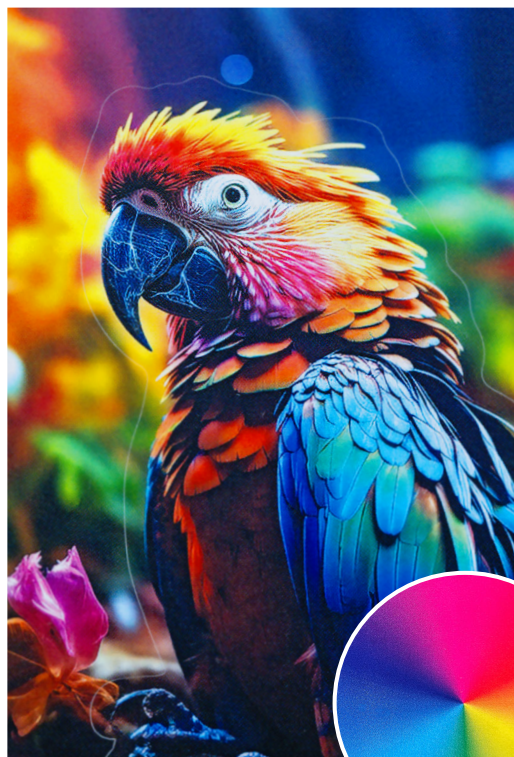

Fasson® AT2550 complies with FDA 21 CFR 175.105 for indirect food contact.

Applications and Use

Suitable for a wide range of general-purpose labels, particularly applications requiring a smooth semi-gloss appearance and reliable performance at low temperatures.

Optimal Storage Conditions

Ideally store at 72°F and 50% RH.
