

Crystal Holographic (Paper liner)

Spec# 78971

Description

A polyester film metallized with a custom holographic pattern. Both sides are corona treated to promote metal and ink adhesion and are suitable for UV and water-based flexographic printing.

Small "shim lines" may appear in the holographic pattern. These are inherent to holographic facestocks and should be considered when determining the label layout.

Caliper 0.0020 inches $\pm 10\%$

Liner

Fasson® 50#SCK is a bleached super-calendered kraft liner with high internal strength and tear resistance.

Adhesive

Fasson® S692N is a clear, general-purpose permanent acrylic adhesive with high cohesive strength and good adhesion to low surface-energy substrates. It offers excellent wetout characteristics and is suitable for squeezable containers.

Performance Data

Min. Application Temperature: +23°F
Service Temperature Range: -20°F to +200°F
(subject to facestock limitations)

Adhesive Performance

Designed to provide lasting adhesion on a variety of substrates while offering short-term removability during application.

FDA Compliance

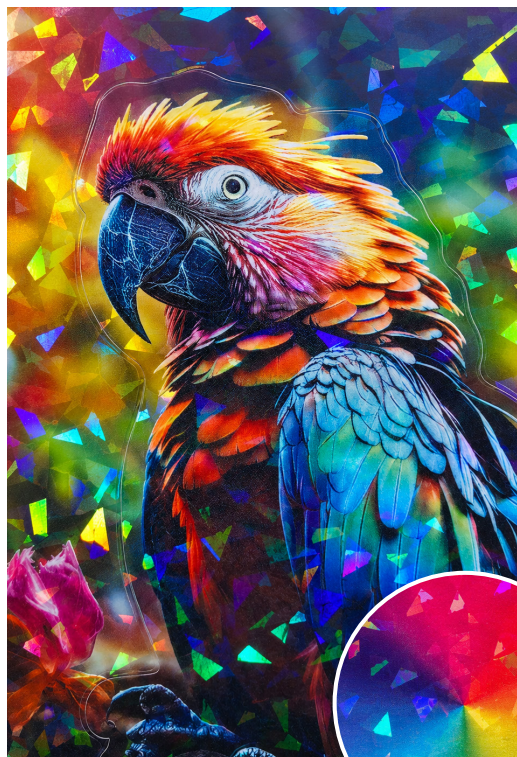

Fasson® S692N complies with FDA 21 CFR 175.105 for indirect food contact.

Applications and Use

Designed for decorative label applications where a striking holographic effect is required. Suitable for UV and water-based flexographic printing.

Optimal Storage Conditions

Ideally store at 72°F and 50% RH.
