

Peel out label (PET liner)

Spec# 78632

Description

A biaxially-oriented polypropylene film with good opacity and a bright white high-gloss appearance. The topcoated surface provides excellent printability, moisture resistance and good diecutting and dispensing characteristics.

Suitable for UV and water-based flexographic, gravure, silkscreen and letterpress printing.

Caliper/Thickness 2.3 mil / 0.0023 inches $\pm 10\%$

Liner

A durable 1.2 mil polyester liner designed for roll-to-roll, high-speed diecutting and dispensing applications.

Adhesive

Fasson® R3400 is a general-purpose removable acrylic adhesive with moderate initial tack and minimal adhesion build over time. It provides consistent adhesion and long-term removability across a wide variety of substrates.

Performance Data

Min. Application Temperature: +40°F

Service Temperature Range: -40°F to +176°F
(subject to facstock limitations)

Adhesive Performance

Designed for applications requiring reliable adhesion combined with long-term removability.

FDA Compliance

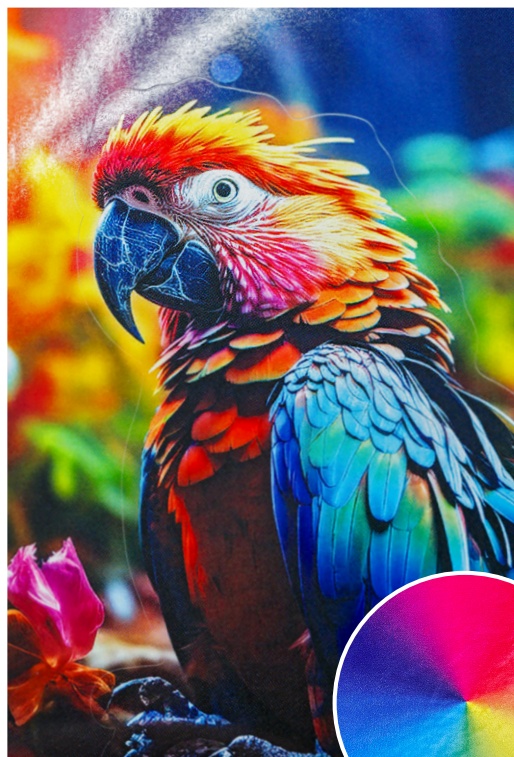

Fasson® R3400 complies with FDA 21 CFR 175.105 for indirect food contact.

Applications and Use

Suitable for removable label applications requiring a bright white high-gloss appearance, moisture resistance and consistent removability.

Optimal Storage Conditions

Ideally store at 72°F and 50% RH.
